October Meeting

Submitted by Mark Choitz

Hal Schalles was our demonstrator for the October meeting. Hal showed us the process to cut, glue up and turn a segmented piece. This process requires a lot of patience and accuracy. Hal showed us the recommended tools needed to pull off the job. Thanks Hal for the demonstration.

The instant gallery had some great examples of turning and finishing. There were several bowls, segmented, natural edge and dyed and a magic wand made by Jerry Lelack. The people's choice went to Dick Powell with a nicely finished white oak bowl, turned from a piece of wood from a tree in his yard. Anyone bringing a piece for the instant gallery could win a gift certificate for Craft Supplies USA.

There will be no instant gallery at the November meeting as this is the annual auction. Why not bring a nice piece to auction off, proceeds go to help with operating costs of the club?

Upcoming Events

December 14: Demonstrator: Keith Gotschall
Demo Topic: Winged bowl (Quaich), is a special kind of shallow two-handled drinking cup or bowl in Scotland.

In 1998 Keith visited with a local wood turning friend who let him play around with some of his tools and showed him some of the more modern theory behind wood turning. Remembering that the lathe was the reason he became interested in woodworking in the first place, Keith was keen to pursue wood turning from that moment on. After studying with recognized masters like Richard Raffan, Mike Mahoney, and Stuart Batty, he now makes work for galleries and private clients.

Keith was the artist featured in a Discovery channel show hosted by Lynette Jennings. (episode 142). He has also been a featured demonstrator at the prestigious BYU Woodturning Symposium in Provo Utah in 2002 and 2008. A featured demonstrator for the 2005 AAW symposium in Kansas, Portland Oregon in 2007, Hartford CT in 2010 and most recently in Tampa FL in 2013. He is an Alumni of the John C Campbell folk school in North Carolina, Marc Adams woodworking school in Indiana, Craft Supply woodturning school in Utah, the Anderson Ranch in Colorado, and most recently the Center for Furniture Craftsmanship in Maine. Keith continues to teach and demonstrate for many different clubs and organizations around the country as well. He has contributed to the AAW magazine American Woodturner, Woodturning Design, and the British magazine Woodturning. As well he has been asked to jury several competition/exhibitions of woodturning and furniture. Keith's work was shown at the 2004 BYU art museum show and the accompanying book "Beneath the Bark". His work is also found in the book "500 Bowls".

December 16 & 17 - Workshop: Ring box, off-center platter/bowl and maybe suction fit lidded box, if we have time.

The workshop will be held at Terry Gerros' shop, 820 Cordon Rd NE, Salem. December 16 & 17, 9-5pm. Cost will be \$200.
