LET THE CHIPS FLY

I cannot believe that another month has past and I have spent almost no time turning. I never understood the people who only turn when it is too cold to be outside but I am beginning to. Yard work, shed building, paying jobs, parenting seem to eat up every spare minute. I can certainly say that I am looking forward to the symposium. At least I will be able to look at some turning and be inspired.

With no June meeting it will be July before we get a chance to pass signup sheets around again. If you are interested in turning at the Powerland steam up please contact Myron Yancey.

We still have a little time for signing up for the state fair. Watch for that sheet at the July meeting. Lastly our monthly challenge for the July meeting is hollow forms. Bring something you have turned since the last meeting.

Turn safe,
Darcy Tataryn
President

Jigs, Gadgets and Gizmos – July 12th Meeting

Many club members can rightfully list ingenuity high on their list of personal attributes. Woodturning – and woodworking in general – often becomes an exercise in problem-solving. If you have solved a vexing woodturning problem, sharing your solution might save a fellow club member a whole lot of trouble. Please share your invention, your creation, and your design process with the membership at our July meeting.

If you have a steady rest, a router carriage, an indexing device, or any other gadget you’ve fabricated for your lathe, your grinder, or your tools, we want to hear from you. We would like five or six club members to share the presentation, meaning each person would only need to prepare for about 15 minutes of talking. Please get in touch with Jeff Zens (jeffzens@custombuiltfurniture.com) by May 17 to share your “genius” with the club.

Thanks!!
